Dear Ms Humphreys

Re: Application 1/07/19021F Siting of 6 Yurts , erection of a wash house, formation of a car park and vehicular access, installation of a septic tank, Mill Farm, Blackford, Stoke St Milborough

Thank you for your consultation on this application. The Shropshire Hills AONB Partnership requests that a decision on this application be deferred until the following information is available:

- i. The levels of traffic likely to be generated by this development,
- ii. The feasibility of providing both hot water and electricity from roof mounted solar panels on the wash house and the options for electricity supply should this not prove possible,
- iii. The electricity source for the bio-digester,
- iv. The proposals for the existing barn on the site and the feasibility of re-using this for the wash house,
- v. A thorough rationale to support the statement that screening will not be needed.

This response has been informed by comments from members of the AONB Partnership. Please do not hesitate to contact me if you need further information. I work Monday - Wednesday each week.

Yours sincerely

Joy Tetsill
Planning and Policy Officer
