Dear Adrian

Re: Core Strategy for Sustainable Resource Management: Issues and Alternative Options.

Thank you for your consultation on the above document. I support the strategic vision detailed under section 8 of the discussion document and the proposed objectives listed under section 9. This latter section does not make any mention of promoting sustainable resource management practices to existing businesses. This could be considered as a complementary to objective 8.

My response to the detailed consideration of the key issues is summarised in a table below. Please feel free to contact me if you need additional clarification.

Issue	Is it significant ?	Which option?	Other options?
1	Yes	a	-
2	Yes	b	-
3	Yes	a	I suggest that option (a) be developed in partnership with the District Councils to reflect the role they have in detailed policy development in these areas
4	Yes	b	-
5	Yes	b	-
6	Yes	a	-
7	Yes	b	-
8	Yes	a	I suggest that option (a) include a reference to the management requirements of such after-uses. Good quality landscapes and habitats tend to be the result of traditional farming or forestry methods. These can require more resources. The connections need to be made explicit and properly resourced.
9	Yes	a	-
10	Yes	c	-
11	Yes	a	-
12	Yes	b	-
13	Yes	a	-
14	Yes	a	-

I am willing to participate in online discussions using KEN, but am equally happy to come to meetings at the Shirehall.

Yours sincerely

Joy Tetsill
Planning and Policy Officer
For the Shropshire Hills AONB Partnership
