Dear Kelvin

13/04831/FUL Broadband communication network mast, Blackhurst Farm, Longnor, Shrewsbury, SY5 7QJ

Thank you for the reconsultation and alternative proposals. We are glad to see the consideration of alternatives to mitigate impact on the AONB. We consider that the siting of two alternative masts below the ridge on either side would have a lower visual impact and we support this option. Furthermore, we feel that the alternative cylindrical design of mast offered would be less conspicuous, especially if as stated it would not require to be fenced.

Yours sincerely

Phil Holden
AONB Partnership Manager
